1. The purpose of this modification is to revise Part III, Section A, Item 11, MOVES, ADDS, CHANGES CLARIFICATION.
2. Part III, Section A, Item 11 is hereby deleted in its entirety and replaced by the following:

11. MOVES, ADDS, CHANGES CLARIFICATION – In addition to the requirements specified in Master Contract NAS5-98144, E.3.1.8, Moves, Adds, Changes, the following clarifications are incorporated:

- a. A move, add, or change is further clarified to include the following:
 - i. A move is defined as de-installation, move and re-installation of seat hardware requiring a physical dispatch of a technician or analyst.
 - ii. Virtual moves do not count in computing the total number of moves. A virtual move is one that does NOT require a physical dispatch of a technician or analyst.
 - iii. Moves are aggregated by service, for example, one move per year for each “seat” type in each of these categories: desktop, server, and communications services.
 - iv. Wiring needed to provide connectivity to a seat is included in the seat price provided the basic infrastructure is in place to support it. If the basic infrastructure is not in place, then the service level goes down to the level the infrastructure can support.
 - b. The cumulative number of moves/adds/changes included in the seat price per year shall be determined using the December ordered seat quantities. This quantity shall be effective for the calendar year following the December period. This quantity shall be used in reporting for the ODIN-OSF-7 data deliverable. In the event that the number of ordered seat quantities should significantly increase or decrease, the annual number may be revised with the DOCO’s concurrence.
3. All other terms and conditions of the Delivery Order remain unchanged and in full force and effect.
